Notes:

1. Basis of Preparation and Accounting Policies

The interim financial report of the Group has been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "Listing Rules") and with Hong Kong Accounting Standard 34 "Interim Financial Reporting", issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

The accounting policies and basis of preparation used in the preparation of the unaudited condensed consolidated interim financial statements are consistent with those followed in the Group's annual financial statements for the year ended 31 March 2009 except that the Group has applied for the first time the following new and revised Hong Kong Financial Reporting Standards ("HKFRS") (which include individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations) issued by the HKICPA, which are relevant to and effective for the Group's financial statements for the annual financial period beginning on 1 April 2009.

HKAS 1 (Revised 2007) Presentation of Financial Statements

HKAS 23 (Revised) Borrowing Costs

HKFRS 1 and HKAS 27 (Amendment) Cost of an Investment in a Subsidiary, Jointly

Controlled Entity or an Associate

HKFRS 2 (Amendment) Share-based Payment – Vesting Conditions and

Cancellations

HKFRS 7 (Amendment) Improving Disclosures about Financial Instruments

HKFRS 8 Operating Segments

Various Annual Improvements to HKFRSs 2008

Other than as noted below, the adoption of these new and revised HKFRSs did not result in significant changes in the Group's accounting policies.

HKAS 1 (Revised 2007) Presentation of financial statements

The adoption of HKAS 1 (Revised 2007) makes certain changes to the format and titles of the primary financial statements and to the presentation of some items within these statements. It also gives rise to additional disclosures. The measurement and recognition of the Group's assets, liabilities, income and expenses is unchanged. However, some items that were recognised directly in equity are now recognised in other comprehensive income, for example exchange difference on translation of financial statements of foreign operations. HKAS 1 affects the presentation of owner changes in equity and introduces a 'Statement of comprehensive income'. Comparatives have been restated to conform with the revised standard.

HKFRS 8 Operating segments

The adoption of HKFRS 8 has not affected the identified and reportable operating segments for the Group. However, reported segment information is now based on internal management reporting information that is regularly reviewed by the chief operating decision maker. In the previous annual financial statements, segments were identified by reference to the dominant source and nature of the Group's risks and returns. The directors consider the adoption of HKFRS 8 has not changed the identified operating segments and reportable segment information compared to 2009 financial statements. Accordingly, no comparatives have been restated.

2. Revenue

Revenue, which is also the Group's turnover, represents the invoiced value of goods sold, after allowances for returns and trade discounts, and services rendered arising from the principal activities of the Group during the period after eliminations of all significant intra-group transactions.

3. Segmental Information

On adoption of HKFRS 8 *Operating segments*, the Group has identified its operating segments and prepared segment information based on the regular internal financial information reported to the Group's executive directors for their decisions about resources allocation to the Group's business components and review of these components' performance. The business components in the internal reporting to the executive directors are determined following the Group's major business lines. The Group has identified the following reportable segments:

- (a) the manufacture and sale of paper cartons, packaging boxes and children's novelty books segment produces paper cartons, packaging boxes and children's novelty books for sale principally to manufacturers and publishers of consumer products;
- (b) the manufacture and sale of hangtags, labels, shirt paper boards and plastic bags segment produces hangtags, labels, shirt paper boards and plastic bags products for sale principally to manufacturers of consumer products; and
- (c) the commercial printing segment provides financial printing, digital printing and other related services.

The directors consider the adoption of HKFRS 8 has not changed the identified operating segments for the Group compared to 2009 financial statements.

Under HKFRS 8, reported segment information is based on internal management reporting information that is regularly reviewed by the executive directors. The executive directors assess segment profit or loss using a measure of operating profit. The measurement policies the Group uses for segment reporting under HKFRS 8 are the same as those used in its HKFRS financial statements, except that certain items are not included in arriving at the operating results of the operating segments (expenses relating to finance costs, income tax and corporate income and expenses).

Segment assets include all assets with the exception of corporate assets, including bank balances and cash, tax receivable and deferred tax assets which are not directly attributable to the business activities of operating segments as these assets are managed on a group basis.

Inter-segment sales are charged at prevailing market prices.

The directors have resolved to declare an interim dividend of HK1 cent per share (2008: HK1 cent per share) for the six months ended 30 September 2009, payable on or before 21 January 2010 to shareholders whose names appear on the Register of Members of the Company on 15 January 2010. The interim dividend proposed after the statement of financial position date has not been recognised as a liability at the statement of financial position date but reflected as an appropriation of retained profits for the period ended 30 September 2009.

9. Earnings per share

The calculation of basic earnings per share is based on the Group's unaudited consolidated profit attributable to equity holders of the Company for the period ended 30 September 2009 of approximately HK\$9,595,000 (2008: HK\$1,465,000) of 609,163,826 (2008: 609,163,826) ordinary shares in issue.

No diluted earnings per share has been presented as there had been no dilutive potential shares in both periods of 2009 and 2008.

10. Movement in property, plant and equipment

During the period, the Group spent approximately HK\$1,639,000 on plant and machinery in order to upgrade its manufacturing capacities and approximately HK\$552,000 in furniture, fixtures and office equipment.

18. Events after the statement of financial position date

On 23 July 2009, the board of directors of the Company announced that an offer would be made to repurchase, subject to conditions, up to 100,000,000 of the Company's shares at the offer price of HK\$0.38 per share (the "Offer"). Details of the Offer were stated in an offer document dated 18 September 2009. A total of 2,410,707 shares (the "Repurchased Shares") were repurchased by the Company in October 2009 at a total consideration of approximately HK\$0.92 million. Immediately after the completion of the Offer and cancellation of the Repurchased Shares by the Company, the issued share capital of the Company was reduced to 606,753,119 shares.

MANAGEMENT DISCUSSION AND ANALYSIS BUSINESS REVIEW

The principal activities of the Group continue to be printing and manufacture of packaging boxes, including accompanying brochures, manuals and catalogues, manufacture of children novelty books, commercial printing, manufacture, trading and sale of hangtags, labels and shirt paper boards, financial printing, provision of translation services and assets management businesses.

For the period under review, the Group achieved a turnover of approximately HK\$278.3 million for the six months ended 30 September 2009, representing a decrease of approximately 15.0% from approximately HK\$327.6 million compared with the corresponding period ended 30 September 2008. Gross profit margin of the Group has improved to 28.8% for the period under review from that of corresponding year of 2008 of 24.3%. The Group's profit attributable to equity holders was increased by 554.9% from that of last corresponding period of approximately HK\$1.5 million, to approximately HK\$9.6 million. Such increase was mainly attributable to the net effect of the increase in fair value gain arising from the Group's financial assets during current period and the decrease in segment results generated by three business segments below.

Printing and manufacture of packaging boxes, including accompanying brochures, manuals and catalogues, together with the manufacture of children novelty books continued to be the Group's major business. For the period under review, the Group recorded total revenue of approximately HK\$228.4 million from this major business segment, which was decreased by about 16.7% compared to that of last corresponding period of HK\$274.3 million. The segment result from this business segment reduced from last corresponding period of HK\$3.4 million to approximately HK\$1.0 million for the six months ended 30 September 2009. It was caused by the adverse impact from the reduction in turnover due to financial tsunami.

The Group's revenue in the manufacture of hangtags, labels, shirt paper boards and plastic bags sustained steadily at approximately HK\$15.0 million for the period under review from that of the last corresponding year of approximately HK\$14.5 million. The segment result from this business segment was decreased from last corresponding period of HK\$2.5 million profit to approximately HK\$0.1 million loss for the six months ended 30 September 2009. The decrease in segment result but increase in turnover were mainly due to the fact that the Group adopted aggressive strategy to accept lower profit margin orders within this period in this segment.

The Group's business in the commercial printing was adversely affected by the reduction in turnover due to intensive competition, and rise in rental expenses. The revenue and segment result for the six months ended 30 September 2009 was approximately HK\$34.8 million and HK\$4.4 million, respectively as compared to last corresponding period of HK\$38.8 million and HK\$9.4 million, respectively.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

BUSINESS REVIEW (Continued)

Due to the recovery of financial market, the performance of the Group's financial assets recorded a fair value gain of approximately HK\$7.2 million during the period whereas the Group recorded a fair value loss of approximately HK\$12.0 million in last corresponding period.

FINANCIAL REVIEW

Liquidity and financial resources

The Group generally finances its operations with internally generated cashflow and banking facilities provided by its principal bankers in Hong Kong. During the period under review, the Group was financially sound. The Group's cash and bank balances and short term bank deposits as at 30 September 2009 amounted to approximately HK\$174.1 million. The Group's gearing ratio as at 30 September 2009 was 10.4% (31 March 2009: 5.0%), based on the short term and long term interest bearing bank borrowings of approximately HK\$46.2 million (31 March 2009: HK\$21.8 million) and the shareholders' fund of HK\$445.5 million (31 March 2009: HK\$437.0 million).

The Board believes that the Group's cash holding, liquid asset value, future revenue and available facilities from major shareholders will be sufficient to meet its working capital requirement of the Group.

Exchange rate exposure

Most of the transactions of the Group were made in Hong Kong dollars, Renminbi and US dollars. For the six months ended 30 September 2009, the Group was not exposed to any material exchange risk as the exchange rate of Hong Kong dollars and US dollars were relatively stable under the current peg system, and the hedging of revenue received, and costs incurred, by the Group in Renminbi.

Financial guarantees and charges on assets

As at 30 September 2009, corporate guarantees amounting to approximately HK\$187.7 million (31 March 2009: HK\$162.7 million) were given to banks by the Company for the provision of general banking facilities granted to the Group's subsidiaries, which were secured by legal charges on certain properties owned by the Group with a total net book value of approximately HK\$10.3 million (31 March 2009: HK\$10.3 million).

CONTINGENT LIABILITIES

As at 30 September 2009, the Group had no contingent liabilities.

PROSPECTS

Looking ahead, the directors expect that the operating environment in the printing industry will subsist to be tough and difficult. In spite of the recent stabilization of the global economy, the Group has been enduring from the slow economic recovery of the United States and European countries. The overseas demand for our products remains discouraging. In order to cope with the anticipated challenges and staying competitive, the Group will continue to implement stringent cost controls and management strategies to improve the profit margins of the businesses, including reducing fixed operating costs, exercising prudent and effective management measures in purchase transactions and inventory holding policy as well as tightening customer credit control. However, it is forseeing that the consistent rising costs in PRC labours and raw materials as well as additional investment for fulfillment of environmental protection requirements will limit the effect of cost control measures. For the purpose of sustaining long term growth, the directors will also keep on exploring all potential opportunities to further the Group's business.
