To the Board of Directors of China Sandi Holdings Limited

(Incorporated in Bermuda with limited liability)

INTRODUCTION

We have reviewed the interim financial statements set out on pages 5 to 37, which comprises the condensed consolidated statement of financial position of China Sandi Holdings Limited (the "Company") and its subsidiaries (hereinafter collectively referred to as the "Group") as at 30 September 2013 and the related condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-months period then ended, and certain explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial statements to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA").

The Directors of the Company are responsible for the preparation and presentation of these interim financial statements in accordance with HKAS 34. Our responsibility is to express a conclusion on these interim financial statements based on our review. This report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" ("HKSRE 2410") issued by the HKICPA. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

REPORT ON REVIEW OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial statements are not prepared, in all material respects, in accordance with HKAS 34.

DIVIDEND

The Board does not recommend any interim dividend for the six months period ended 30 September 2013.

BUSINESS REVIEW

The Directors considered the current property investment business in the PRC to be an invaluable opportunity for the Group to broaden its asset and earning base. The Directors are pleased to report that the property investment business continued to contribute profit to the Group for the period under review.

On 7 August 2013, Fujian Sinco Industrial Co., Ltd. ("Fujian Sinco") entered into a joint venture agreement with a company controlled by a substantial shareholder of the Company, Mr. Guo Jiadi, for the establishment of a PRC joint venture for engaging in investment, development, sale, lease, management of properties and other ancillary services in the PRC, including bidding for a parcel of land in Xi'an, the PRC for property development (the "Joint Venture Agreement"). The aforesaid joint venture has been established and the Group started to involve in property development business. The Board considers that it is beneficial for the Group to dispose of the Disposed Group and focus to develop its property development and investment business, which generates stable income to the Group with growth potential.

On the other hand, the running costs of traditional ecological forestry business kept on rising and the granting of harvesting permit was very limited. The Group considered it was difficult to yield a reasonable return and no harvesting activities has been carried out during the six months period ended 30 September 2013. As a result, the Directors have been considering to dispose of it by various means including public tendering since November 2012.

MANAGEMENT DISCUSSION AND ANALYSIS

On 27 September 2013, the Company has entered into an agreement to sell the shares of Success Standard Investments Limited (“SSIL”) (SSIL together with its subsidiaries collectively referred to as the “Disposed Group”) and all liabilities due by the Disposed Group to the Group (assuming the completion of this transaction had been occurred and the inter-company balances due from the Disposed Group no longer be eliminated at consolidation), at a total cash consideration of approximately HK\$400 million (the “Disposal”). SSIL is an investment holding company which holds the Group’s ecological forestry assets. As of the date of this report, the transaction has not yet been completed nor approved by the shareholders of the Company.

The property investment business

The Group is optimistic to the commercial property market of mainland China in the long run.

The property investment business is mainly operated by Fujian Sinco, which is a wholly-owned indirect subsidiary of the Company. Fujian Sinco is engaged in development, operation and management of a home improvement plaza.

During the six months period ended 30 September 2013, the property investment business had recorded approximately HK\$64.4 million rental income and management fee income. The plaza had an occupancy rate of approximately 88%.

The property development business

It is the first time for the Group to be able to commence its property development business through the signing of the Joint Venture Agreement on 7 August 2013. In additions, the Group, through Fujian Sinco, is able to capitalize on the experience and expertise of the major shareholder and to participate in the property development business in Xi’an and to grasp any other property development opportunities in the future, if any.

The ecological forestry business

The business and financial performance of the ecological forestry business of the Group was unsatisfactory over the past few years. After harvesting the timbers located at the more convenient forest area, the Group is required to pay high transportation cost including the road construction cost and labour cost to reach the remote forest area to harvest the timbers. In addition, due to the implementation of more stringent environmental policy by the government in recent years to protect the forests in the PRC, it was difficult for the Group to apply for all the necessary licences and permits, including the harvesting licences, for conducting harvesting activities to harvest the timbers. After taking into account of the above factors and balancing the costs and benefits in harvesting the timbers, the Group considered it was difficult to yield a reasonable return and cease to carry out any harvesting activities during the six months period ended 30 September 2013. In respect of the biomass energy business of the Group, due to insufficient supply of raw materials and material fluctuation in energy prices, the biomass energy project of the Group was not progressing smoothly.

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECTS

The Group has positioned itself as the property investment as its core business. Through the setting up of the PRC joint venture together with a major shareholder of the Company, the Group started to be involved in the property development business thereafter. The Directors expect that the property investment business will increase the income stream of the Group, bring stable earning to the Group, increase the return on equity and bring a long term benefit to the Group. On the other hand, the Directors expect such stable income stream from the property investment business will be used to finance the future capital requirements from the property development business.

The operating environment remains difficult for the ecological forestry business. Though the possible Disposal, the Directors consider that the Disposal reduce the capital expenditure of the ecological forestry business and improve the Group's working capital. The Directors expect that the net proceeds from the Disposal will be used for (i) investing in other potential property development and investment projects and (ii) general working capital of the Group.
